

SERVICE PLANS 2021

USA-Hoich Irrigation is proud to announce our *2021 Sprinkler System Service Program*. We have designed the following plan to make servicing your residential sprinkler system simple and convenient. We can save you money, time, and water while improving the operation and efficiency of your residential sprinkler system. All repairs and services will be performed by a professionally trained and experienced technician. Just select which plan you would like on your card and send a check in with payment or call the office with you credit card information!

2021 SERVICES OFFERED

Priority Service for all Service Program Customers

Spring Start-up – Activate system, program controller and check batteries, run through all zones, adjust heads, bleed air from valves and check for leaks. *Regular cost per hour \$80.00*

Summer Adjustment – Run through all zones, re-program controller schedule for weather, and adjust heads for proper performance, and check for leaks. *Regular cost per hour \$80.00*

Fall Winterization – Blow out or drain system and winterize vacuum breaker (backflow). *Regular cost \$75.00*
Lake, pump and/or larger systems over 10 zones may require additional labor resulting in additional cost
